For NRD Use Only Field ID Number: _____ <small>(Use surface water appropriation number as field number where applicable)</small> Customer ID Number: _____	Required Documentation Raised Seal Assessor's Document or Approved Variance Form _____ FSA Aerial Photo with Field Delineated _____
---	---

I recognize that this form also serves as a Nebraska Department of Natural Resources form and acknowledge that a copy of this form may be sent to the Department. I agree that this form shall serve as notification to the Department that any recorded water well information that is inconsistent with the information reflected in this form should be revised in accordance with the information on this form. For any registered well that is identified on this form, the Department may use the information herein to process a change of well ownership, a change in pump capacity, a change in use, a change in location of the well or any other change relative to the registered well data base for that well. The Department shall not collect a fee for the filing of this form.

CERTIFICATION OF IRRIGATED ACRES PROCESS

1. Landowner – Should be filled out the way the land is titled.
2. This “Yes” or “No” check box should indicate if the owner of the land is the same owner of the well. Note that if this is checked “Yes,” DNR will change the registered well database of all the wells listed on this form to this landowner.
3. Contact Person – Only use this if the contact person is someone other than the landowner. If the land is in Trust, Corporation, etc., list one contact person.
4. Field Information – This should be filled out according to the field size. If the field is less than 40 acres, then both 1/4s should be filled in. If it’s greater than 40 acres, fill in one ¼. The aerial photo will show where the field is exactly.
5. Number of acres will match what is on the Assessor’s records or variance forms.
6. These 3 blanks are to show how the acres are irrigated and designed to indicate the combinations.
7. List the Well Registration numbers or Surface Water Appropriation numbers, or both.
8. List type of irrigation system.
9. A place to allow comments. Example: This is in CRP Contract to expire in 2010.
10. Landowner signature or Power of Attorney or Trustee/Corporation representative.
11. NRD signature will be done at the Headquarters Office for final approval.
12. Field ID Number is the Surface Water Appropriation number or Irrigation District ID number if any part of the field is irrigated with surface water. If it is only groundwater irrigated, use Registration number of the well or one of the wells.

Customer ID Number is within the NRD database.

Required Documentation – These need to be checked or initialed showing those items are present.
