LOWER LOUP NATURAL RESOURCES DISTRICT
2620 AIRPORT DRIVE
ORD NE 68862

*A society grows great when old men
plant trees whose shade they know
they shall never sit in
- Greek Proverb*

Nebraska conservation trees and the Lower Loup Natural Resources District follow rigorous production and handling guidelines to produce and deliver a high quality seedling tree. Procedures are constantly updated to ensure tree seedlings have the maximum potential for survival after they are out-planted.

All tree seedling orders are accepted subject to availability. Orders are accepted beginning November 1st of each calendar year. A current list of species available may be requested at that time.

Lower Loup Natural Resources District

Tree Planting Program

Trees. They stand silent and strong... Protecting farms and ranches as livestock or farmstead windbreaks. They control snow as living snow fences. Trees increase wildlife habitat. They reduce stream erosion and siltation, and they keep Nebraska's winds from eroding precious topsoil.

Trees are the best monuments that a man can erect to his own memory. They speak his praises without flattery, and they are blessings to children yet unborn.
- Lord Orrery 1749

Tree Planting

The Lower Loup NRD sells trees to residents and property owners across the District. Trees can be purchased as cooperator handplants or for NRD machine planting. Trees are two year old bare root seedlings and approximately 12 to 18 inches tall. The District's tree crews can machine plant thousands of trees a day. There is a \$200 minimum charge for machine planting.

Cost-Share

Cost-share is available when NRD crews plant riparian buffer strips, and field, livestock, and farmstead windbreaks.

Cost-share assistance is available when planting trees on CRP acres or for wind break rehabilitation too. Both state and federal cost-share is available.

Applications for cost-share should be made at your local Natural Resources Conservation Service (NRCS), Farm Service Agency (FSA), or the Lower Loup Natural Resources District office. Contact the District Forester or your local NRCS office for additional cost-share assistance.

A man does not plant a tree for himself, he plants it for posterity.
- Alexander Smith

Lower Loup Natural Resources District Tree Order Form

Each variety must be ordered in bundles of 25
